## NEW! MAKESHIFT SERIES

A series of projects that focuses on using recycled materials to make art. This series of four classes for beginners and experienced crafters will be held at the Schweinfurth Art Center, 205 Genesee St., Auburn, N.Y.

### 2/16 Wooden Beaded Necklaces Allison Graff

Make a necklace with wooden beads and buttons during this class with Program Director Allison Graff. This project is a great gift for jewelry lovers of all ages. The basics learned during this class will serve as inspiration for making more jewelry. All materials will be provided.

### 3/15 Printed Greeting Cards Richard Pardee

Participants will produce greeting cards using collography. Collography is a printmaking process in which two-dimensional found materials like paper, lace, string, or leaves are used to create a reproducible printed image. Printmaking Professor Richard Pardee will demonstrate the technique and will guide card production. Materials will be provided.

### 4/19 Creative Lighting Creations Robert Loring

Using a basic lighting kit, participants will design creative lighting fixtures using found objects like glass bottles, straws, or silverware. Artist and teacher Robert Loring often creates art using repurposed objects. Create unique lamps, sconces, and other lighting creations will add a unique recycled artistic touch to any home. Lighting kits will be sold separately.

### 5/17 Waterproof Wallets

Using recycled mailing envelopes, food wrappers and other impermeable materials, participants will make waterproof wallets for men, women, and children. All materials will be provided.
